

## Organizational Announcement

May 5, 2009

Effective May 1, 2009 Dennis Tuel Jr. has decided to leave ShoreMaster and pursue other business interests that he has been involved with for some time.

As these ventures have grown, they are requiring more and more of his time and Dennis has decided to dedicate his time to continuing the growth of these ventures. Since he has been involved in the ShoreMaster business since he was a young boy helping his father develop and grow the business, I am sure this was a very difficult decision for him to reach.

Dennis has been instrumental in the design and specifications of our residential segment products, as well as, growing the ShoreMaster commercial business, having played a key part in the commercial acquisitions of the company.

Besides being more involve in his other business interests he will continue as a consultant and adviser to ShoreMaster on commercial marina's and new product designs.

Please join me in wishing Dennis success in his business ventures and I look forward to his input in helping us continue to grow the commercial segment of the business.

Dennis Kostrzewski  
President  
ShoreMaster Inc.
