## **Woodland Resort, Devils Lake, ND**

Woodland Resort in Devils Lake, North Dakota has started a new marina project featuring ShoreMaster galvanized steel floating dock sections with concrete decking. The marina project at Woodland Resort calls for 96 total slips and 60 of them have the ability to be covered with ShoreMaster Aluminum canopies. Woodland Resort will also feature new [RhinoHoist floating boat lifts by ShoreMaster](#).

Woodland Resort is the go-to resort on Devils Lake and the only full service, on-the-water resort and fishing destination. Woodland Resort owner Kyle Blanchfield said “the quality and finish of the ShoreMaster products” was the primary reason he chose to utilize it for his marina.

The ShoreMaster marina project at Woodland Resort began as construction crews dredged out an area at the resort approximately 400’ x 300’ to make room for the marina. Then the crew cut a 50’ wide channel from the main body of water to the dredged area to allow water to fill the marina.

Construction on the dock phase of the marina project began in mid May and includes a total of four individual docks, all of them will feature six foot wide main walkways. The four docks are configured as docks A, B, C, and D, with docks A, B, and C having single, 10’ x 20’ slips, with 4’ and 2’ fingers. Dock D features 4’ wide fingers and 22’ x 20’ slips.

Currently, Woodland Resort has completed, or is near completion on docks A, B, and D and will complete dock C in early July.

Woodland Resort owner [Kyle Blanchfield](#) worked with Denny Schneider of [Bobs Boat Lifts](#), a ShoreMaster retailer, out of Grafton, ND and Mike Spilde, ShoreMaster Territory Sales Manager based out of the Fergus Falls, MN corporate office to initiate the marina project and explore the design and construction phase of the marina.

To see a short video about what Woodland Resort owner Kyle Blanchfield has to say about working with ShoreMaster, please take a couple of moments to [watch this short video](#).

For more information on this ShoreMaster marina project, please contact Mike Spilde at 218-205-6920, or send him an email at [mike.spilde@shoremaster.com](mailto:mike.spilde@shoremaster.com) . You can also find a ShoreMaster Commercial Marina representative at [www.shoremaster.com/contact us](http://www.shoremaster.com/contact_us) .

More information will follow as the project nears completion in Early July, 2011. Please continue to the next page for photos of the Woodland Resort Marina Project in progress...
