RE: ShoreMaster 850 Wave Attenuator and Dock System

Summer Ridge Condominiums has been extremely satisfied with our ShoreMaster Dock System and ShoreMaster 850 Post Tensioned Wave Attenuator System. Since our condo complex is on a very busy stretch of water of Lake of the Ozarks we could not even keep our boats in dock A of our old marina.

The stability of having both ShoreMaster Docks and the ShoreMaster 850 Wave Attenuator System allows the condo owners the ability to enjoy the docks year round even during all the Holiday weekends!

Sincerely,

Jim Verhoef
